WHERE TO SEND YOUR DONATION

PLEASE SEND:

1. Completed Donation Form
2. Cheque or Credit Card details (do not mail cash)

TO:

THE KIDNEY FOUNDATION OF CANADA, SOUTHERN ALBERTA BRANCH

6007 1A St SW
Calgary, AB T2H 0G5

IMPORTANT NOTE: Kidney March is committed to ensuring that the maximum percentage of donor dollars is returned to non-profit programs. We cannot predict, however, what the percentage will be. This depends on many variables, including how many Marchers participate, how much money they raise, recruiting, logistics and event expenses.

PLEASE NOTE: Donations equal to or greater than \$20.00 CAD will be tax receipted. Donations are non-refundable and non-transferable.

MATCHING GIFT PROGRAM: Many companies provide their employees with matching gifts/pledges. Please check with your employer on specific matching gift guidelines.

THANK YOU FOR YOUR SUPPORT

THE KIDNEY FOUNDATION OF CANADA

Kidney March is an event created by The Kidney Foundation of Canada, the national volunteer organization committed to eliminating the burden of kidney disease by achieving excellent kidney health, optimal quality of life, and a cure for kidney disease. The Kidney Foundation has helped millions of Canadians suffering from kidney failure and related disorders such as hypertension, diabetes, urinary tract infections and kidney stones. Our fundraising campaigns allow us to contribute millions of dollars to research, organ donation and transplant programs, and services for those with chronic kidney disease.

In Southern Alberta, The Kidney Foundation has a reputation for making things happen. To truly make a difference, we must aim high. That is what Kidney March is all about.

FUNDS RAISED BY KIDNEY MARCH SUPPORT THREE MAIN AREAS:

1) Funding New Research

Each year, promising research projects, evaluated through an extensive review process and recommended for funding, are left undone. Kidney March is changing that. Our goal is for an unprecedented expansion of kidney research in Canada, to double our annual research funding to \$8 million within 5 years. We are putting the greatest scientific minds in Canada to work, fighting back against this disease.

2) Kidney Disease Prevention

Kidney March tackles kidney disease head-on by emphasizing early detection. Canadians who don't know they are at risk MUST be identified for early treatment. Kidney March has supported The Kidney Foundation in doing just that by providing a variety of kidney education resources to patients, hospitals, and the general public at no cost. The Kidney Connect Peer Support Program allows patients and families to talk to others with similar life experiences about what to expect when learning to live with kidney disease. In addition to the emotional and physical strain, patients also bear a financial burden. The Foundation provides short-term financial assistance for patients and advocates to remove barriers that create financial hardships. Vital programs like these require ongoing funding to meet the needs of the growing kidney population.

3) Growing the Organ Donation Pool

Over 78% of the people on the transplant waiting list are waiting for a kidney. The list is getting longer, and so are the wait times. We are developing new comprehensive organ donation awareness and education programs. We want people talking about organ donation and moving to act on their desire to become donors. We are putting organ donation in the hearts and minds of Canadians and health policy makers like never before.

YOUR COMMITMENT

Thank you for choosing to support the 14th annual Kidney March. It was started here in Southern Alberta and is the biggest walk of its kind in Canada. No one else walks this far, for this long, for this cause. You are making a remarkable difference by supporting this movement. You are taking a stand to say that kidney disease and organ donation are important and worth doing something about. It is a powerful commitment, and we are thankful that you're supporting us on this journey.
